DIRECTIONS

Vacuum carpet thoroughly. Pre-test carpet for colorfastness in an out-of-sight area.

To neutralize alkali residue: As a post rinse aid to neutralize alkaline residue from cleaning, Rinse & Neutralizer should be diluted at 1:64 (2 ounces per gallon of water).

For removal of browning: Dilute 1:32 (4 ounces per gallon of water), and spray the area lightly.

Prespray and rinse extraction: Apply your favorite carpet pre-spray, extraction cleaner to carpet according to label directions. Allow the pre-spray or extraction cleaner to dwell for 5-10 minutes to loosen soil. Extract with carpet Rinse & Neutralizer diluted at 1:128 (1 ounce per gallon of water).

For rust removal: Use product as is and spray the area lightly. Allow product to dwell 3 – 5 minutes and blot with absorbent towels. Extract area with water thoroughly.

Use unheated tap water when diluting product.

Always thoroughly vacuum the carpet after it dries to remove any potential residue remaining.
